Project Information

Project _____ Approval _____

For Ceiling Gas Outlets

Dimensions

Dual Hose Retractor

Hose Assembly & Retractor Kit

Part Number	Description
88-0211	Dual Hose Retractor Kit for 1/4" ID
88-1117	Dual Hose Retractor Kit for 5/16" ID

To determine the desired length of hose order:

With Hose Retractor: Distance between finished floor and finished ceiling minus 4'-8" (1422mm) = Hose length

Without Hose Retractor: Distance between finished floor and finished ceiling minus 6'-4" (1930 mm) = Hose length

Note: When using the equations given above, the check unit will terminate approximately 6'-4" (1930mm) above the finished floor.
