

## Tri-Tech Medical Inc.

## *E Z Backfeed™ Retro, E Z Find™ & E Z Feed™ Products*

Tri-Tech Medical patented E Z Backfeed™ Retro, E Z Find™ and E Z Feed™ products allow most existing medical gas valves to be converted to incorporate a DISS gas specific backfeeding port and a DISS gas specific transducer connection. The benefits provided are: the facility has available on line port(s) for backfeeding specific areas of the facility for emergency preparedness and for remodeling. Also, the transducers, which provide/monitor gas line pressures in the zone, are able to be installed in the corresponding zone valve box for easy access for testing and service.

*Where would you prefer  
to have your alarm  
transducers installed?*

*Where would you  
prefer to backfeed  
your medical gases?*

*Here  
or  
Here*

There is a need for an acceptable place to backfeed medical gases that is safe, easy to find, easy to access. There is a need for an acceptable place to install transducers that is safe to access, easy to find and easy to access. That is what the E Z Backfeed™, E Z Feed™, and E Z Find™ products are all about – making your hospital safer and your job and the verifier's job easier.
